

# 5 Steps

### CAMERA

Students create a short video of themselves describing their hopes, objectives & aspirations for the year.

You create short video tutorials demonstrating or explaining classroom procedures

Students interview each other about their summer

### SOCRATIVE

Provide students a way to contribute to class rules

Capture class goals for the year

Open up discussion about digital citizenship

Run a Space Race to begin teaching iPad skills

**CAMERA:** Include pictures of the board or a projection in their notes  
Use the video camera to practice their reading or speaking

**SAFARI:**  
Add and create bookmarks  
Create Web Clips  
Use Open In...

**EXPLAIN EVERYTHING:**  
Students record a demo of their understanding of a previous concept.  
Students make a PSA about iPad use

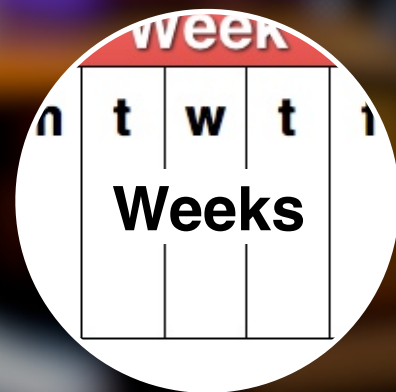

**SOCRATIVE:** Review material  
Create a back channel  
Run an exit ticket

**NOTABILITY:** Type, draw, record audio, and incorporate pictures into their note taking process  
Turn in work as PDF or other file format

**CLOUD STORAGE:**  
Create a Box or Dropbox account  
Learn to access content & send to it  
Link Notability to cloud for back-up

**CAMERA:**  
Students record literature discussions, practice fluency or capture class observations

**EXPLAIN EVERYTHING:**  
Students use pictures, drawing and voice to record their own understanding for peers to review.

**IMOVIE:**  
Students take elements of topics and act out scenarios that show their understanding

**SOCRATIVE:**  
Spelling assessment  
Reading comprehension  
Math Facts Review

**NOTABILITY:**  
Take picture & write below  
Take picture & type below  
Take picture & talk through process

**BOOK CREATOR:**  
Create books to hold all material for a project including work done in other apps and publish to school library
